No

When did the events that led to your complaint occur? Enter the Month and Year e.g. 01/2001.

11/2007

Tell us what happened. Describe the events in the order they happened. Include dates.

Lutec are circumventing the requirement for a prospectus by requiring potential investors to certify that they are "sophisticated investors". Lutec's product is a perpetual motion machine, so the probability of investors receiving a return is nil. As a prospectus must contain truthful statements and a claim that a machine can produce more energy than is put into the process cannot be true in this universe, it is obvious why Lutec don't want to issue a legal document making this claim.
